MAIORA

COMPATIBLE WITH
NESPRESSO® SYSTEM

MAIORA THE CHOICE

- Moulded by thermoforming in PP/EVOH/PP
- EVOH layer ensures an excellent oxygen barrier protection
- Easier perforation area thanks to the aluminium foil
- Patented 18 holes water distribution system for a better brewing
- Bigger internal volume
- High degree in compatibility with coffee machines (HANSE CONTROL certificate)
- Patented sealing ring secures the correct positioning inside the brewing chamber and prevents from leaking
- Recommended with ground coffee
